

Piani Hosting con Pannello Ensim Pro

Loggarsi nel pannello di controllo del proprio dominio

- **login**: *nomedominio*
- **domain**: *nome del proprio dominio con l'estensione*
- **password**: *quella assegnata da Eurologon o quella scelta se è stata variata*

The screenshot shows a login form titled "Site Administrator Login:". Below the title, there are three lines of text: "Your Login is the Site username.", "Your Domain is the site's domainname.com.", and "These fields are case sensitive.". The form contains four input fields: "Language:" with a dropdown menu set to "English (US)", "Login:" with the text "eurologon", "Domain:" with the text "eurologon.com", and "Password:" with a masked password field represented by ten dots. A "Login" button is located below the password field.

Nella colonna di sinistra cliccare su “**Services**”

The screenshot displays the Ensim Pro control panel interface. At the top left, there is an "ISP LOGO" and a header for "servizihosting.it" with server details: "Web Server Name: www.servizihosting.it", "Mail Server Name: mail.servizihosting.it", "FTP Server Name: ftp.servizihosting.it", "IP Address: 82.11", and "Administrator: ser".

The left sidebar, titled "SYSTEM MENU", lists various system functions. The "SERVICES" option is highlighted with a red box, and a red arrow points to it from the right. Other options include HOME, SITE INFORMATION, MAILBOXES/USERS, WEB SERVER, CONFIGURATION, FILE MANAGER, SUBDOMAINS, LOG MANAGER, REPORTS, SITE TRAFFIC, ANALOG, WEBALIZER, EMAIL, ALIASES, RESPONDERS, MAILING LISTS, SENDMAIL REJECT LIST, BACKUP/RESTORE, POWER TOOLS, and HELP.

The main content area shows a dashboard with several sections:

- HOME**: Includes links for [Dashboard](#) and [Shortcuts](#).
- My Web Site**: A section for building, managing, and enhancing the website.
- Unique Page Hits**: A section for tracking website traffic, showing "Monthly Avg.:", "Last Month:", and "This Month:". The data is currently "Not Available".
- SERVICES Mailboxes**: A section for managing and monitoring site's user & email resources, showing "Users (Mailboxes): 3/40".

Quindi nella finestra successiva cliccare su **“Create Database”** nel menu in alto.

» **servizihosting.it**
 Web Server Name: www.servizihosting.it
 Mail Server Name: mail.servizihosting.it
 FTP Server Name: ftp.servizihosting.it

IP Address: 82.112.211.247
 Administrator: servizihosting

MYSQL
 Manage Databases ■ List Databases ■ **Create Database** ■ Change Password

Configuration
 Click the link to open the MySQL Administration Tool. It will open in a new window and you will need to enter a username and password to access it. Your MySQL login is the same as your Site Administrator Name. If you forgot your password, you can change it in the Change Password link.
 MySQL Administration Tool **Create Database**

Nella finestra successiva inserire il **numero del database** e cliccare su **“Save”** (salva).

Esempio:

- per il primo db inserire “1”
- per il secondo db inserire “2”

» **servizihosting.it**
 Web Server Name: www.servizihosting.it
 Mail Server Name: mail.servizihosting.it
 FTP Server Name: ftp.servizihosting.it

IP Address: 82.112.211.247
 Administrator: servizihosting

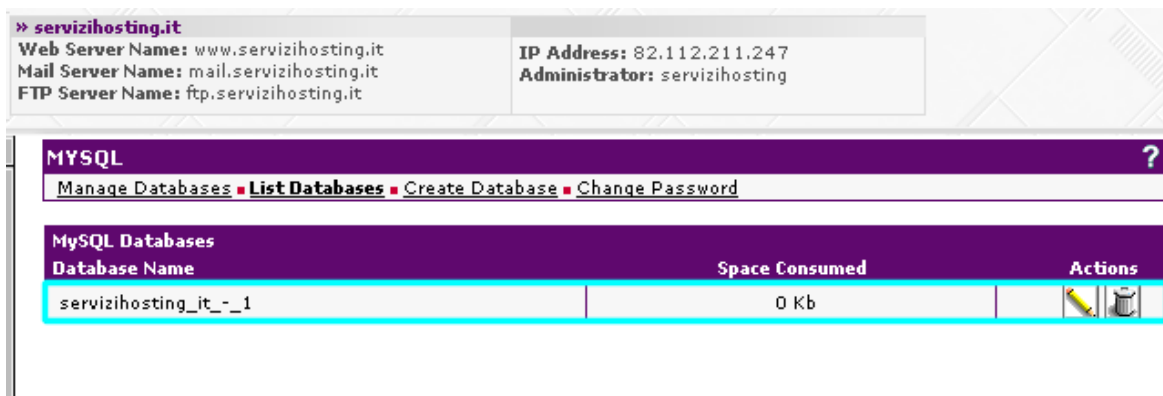

MYSQL
 Manage Databases ■ List Databases ■ **Create Database** ■ Change Password

Create Database
 For uniqueness, the database will be created with servizihosting_it_- as a prefix.
 The database name can have maximum length of 41 characters.
 The maximum number of databases that can be created is 5

Database Name	servizihosting_it_- <input type="text"/>
Database Admin	servizihosting

Save Reset Cancel

Se il db è stato creato correttamente comparirà questa schermata

» servizihosting.it
Web Server Name: www.servizihosting.it
Mail Server Name: mail.servizihosting.it
FTP Server Name: ftp.servizihosting.it
IP Address: 82.112.211.247
Administrator: servizihosting

MYSQL ?

Manage Databases ■ List Databases ■ Create Database ■ Change Password

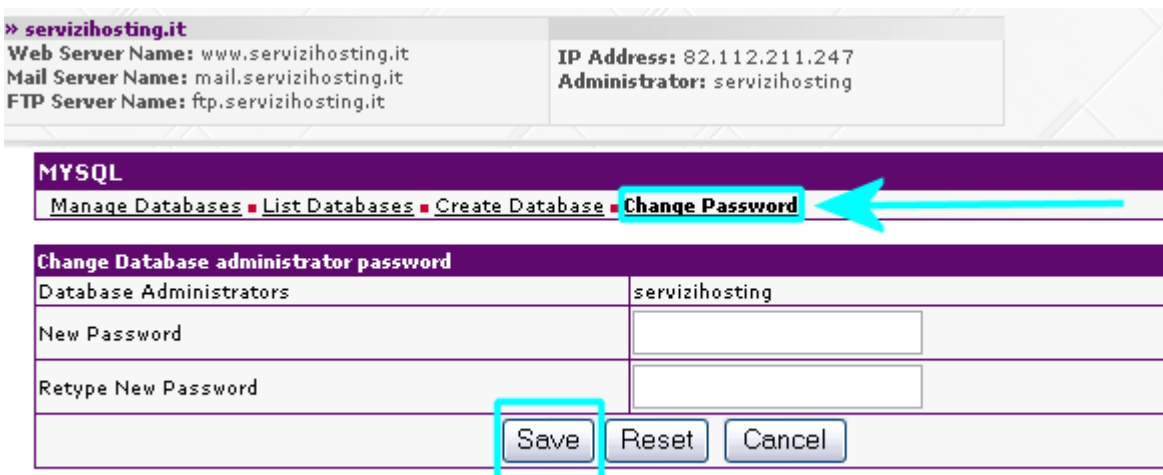

MySQL Databases

Database Name	Space Consumed	Actions
servizihosting_it_-_1	0 Kb	 

A questi punto è necessario inserire la **password** per il database.
Nel menù in alto cliccare su **“Change Password”**, quindi inserire la password desiderata e cliccare su **“Save”**.

E' consigliabile scegliere una password lunga almeno 8 caratteri, composta da lettere maiuscole e minuscole e numeri, possibilmente non una parola di senso compiuto.

La password scelta sarà uguale per TUTTI i database (anche futuri).
