[forgot your password?](#)

Nel menu sulla sinistra, cliccare su "Add User" (aggiungi utente)

The screenshot displays the Eurologon management interface. On the left, a sidebar menu is visible with three main sections: 'Site', 'Users', and 'Services'. The 'Users' section is expanded, and the 'Add User' option is highlighted with a blue box and a blue arrow pointing to it. The main content area on the right is divided into three sections: 'site', 'users', and 'services'. The 'site' section contains an 'overview' icon. The 'users' section contains five icons: 'list users', 'add user', 'import users', 'list user templates', and 'add user template'. The 'services' section contains four icons: 'list service', 'general information', 'bandwidth monitoring', and 'site disk usage'. Below the 'services' section, there are two sub-sections: 'microsoft dns' with 'add zone' and 'list zones' icons, and 'iis web service' with 'overview', 'virtual directories', 'subdomains', 'domain aliases', and 'custom errors' icons. The 'iis ftp service' section is partially visible at the bottom.

Completare il form della pagina successiva inserendo obbligatoriamente "username" e "password", mentre sono facoltativi "First Name" (nome), "Middle Name" (abbreviazione del nome) e "Last Name" (cognome)
Cliccare infine sul bottone "Next" per procedere oltre.

Step 1: Set Up User Account

Complete this form to create a login account for the user control panel and the service control panel, if privileges are enable information in the wizard, choose a template.
