Login: eurologon

Domain: eurologon.com

Password: ●●●●●●●●

Login

Nel menu sulla sinistra, cliccare su "**mailboxes/users**" (caselle email / utenti)

The screenshot displays the Ensim Pro dashboard interface. On the left, a 'SYSTEM MENU' sidebar lists various system management options. The 'MAILBOXES/USERS' option is highlighted with a yellow box, and a yellow arrow points from it to a corresponding yellow box in the main content area. The main content area is divided into several sections:

- HOME**: Contains links for 'Dashboard' and 'Shortcuts'.
- My Web Site**: A section for website analytics. It includes a table with the following data:

Category	Value	Link
Monthly Avg...	732	Pages per Hour
Last Month:	6492	Pages per Day
This Month:	3124	Pages per Month

Below the table is a bar chart titled 'Past 7 : days' showing daily unique page views from 2/8 to 2/14. The y-axis ranges from 0 to 1000. The highest bar is on 2/10, reaching approximately 750. Other days show significantly lower values, mostly below 100.
- Users & Mailboxes**: A section for managing user and email resources. It displays:

Users (Mailboxes):	1/20
Disk Used by Mail :	1 MB

In questa schermata sono elencati tutti gli indirizzi e-mail che, eventualmente, sono già stati creati.

Per creare un nuovo indirizzo, cliccare su **"Add user"** (aggiungi utente) nel menu in alto

MAILBOXES/USERS

[Manage Users](#) [Add User](#) [Set User Defaults](#)

Manage Users

Search: User Name contains

<input checked="" type="checkbox"/>	Add User	Full Name	Options
<input type="checkbox"/>	apache		
<input type="checkbox"/>	ensimrootmail	ensimrootmail	
<input type="checkbox"/>	formalabens	formalabens.it	
<input type="checkbox"/>	ftp	ftp	
<input type="checkbox"/>	mail	mail	
<input type="checkbox"/>	majordomo	Majordomo List Manager	
<input type="checkbox"/>	mysql		
<input type="checkbox"/>	root	root	
<input type="checkbox"/>	snmisp		
<input type="checkbox"/>	sshd		
<input type="checkbox"/>	tomcat4		

Select multiple users from the column and perform an action:

Quindi inserire lo **username**, il **fullname** (nome completo) e la **password**.

Indicare la dimensione massima della casella di posta **Disk Quota** (consigliamo di non inserire valori inferiori ai 25/30 MB),

Cliccare infine su "**Add**" (aggiungi) per aggiungere l'indirizzo e-mail.

Manage Users ■ **Add User** ■ Set User Defaults

Add User

Users are added with the following properties:

- Email Address: `username@domainname.it` or `(username@domainname.it)`
- To access SSH: Login/username is `username@domainname.it`
- To access FTP: Login/username is `username@domainname.it`
- To access email via POP/IMAP: Login/username is `username@domainname.it`, except for mail readers which do not allow @, then use `username#domainname.it`

User Information

Username	<input type="text" value="gabry"/>
Fullname	<input type="text" value="Gabriella"/>
Password	<input type="password" value="....."/>
Confirm Password	<input type="password" value="....."/>

Services

Disk Quota	<input type="text" value="20"/> MB (0 means unlimited quota)
FTP	<input type="checkbox"/>
CGI	<input type="checkbox"/>
SSH Secure Shell	<input type="checkbox"/>

Subdomain

Create a user subdomain	<input type="checkbox"/>
